Persuasive technologies

VR in fashion?

MARCH 3RD, 2025

Benefits

Convenience

Unlimited stock and space
Not leaving the house: time saving
Global access

Customisation:

Stores tailored to the user
Shopping for significant other, friends, ...

Extra:

Less theft
Socially challenged people

Pitfalls

Privacy/Ethics

From cookies to size, height, face, ...

- What with underwear, swimwear?

Cybersickness

47% of undergraduate students suffer

Mareta et al. (2022)

Social limitations

Social exclusion: we should learn from COVID

Cerutti et al. (2022)

Social cues are lost

Pitfalls, part II

Demographic-dependence

VR highly favours certain demographics

What with impairments?

Stakeholder-analysis

Millennials vs. boomers

Economics

What with current jobs?

Costs of VR-headsets

AI and environment

Physicality

Sensory quality (feel, fit, finish)

Feeling of 'going shopping' is lost

Conclusion

VR vs. real life?

“——

It's not a question of whether we **can** do it,
but a debate about whether we **should** do it.
